SAMEER KUMAR GUPTA

SharePoint (SPFx) Developer at Smalsus Infolabs Private Limited, Noida, U.P., India
Email: Samirgupta19670@gmail.com, Phone: (+91) 9721355858, 9170808019, Noida, U.P., India, LinkedIn: samir-gayatri-545a95a2, GitHub: Gayatri19670

PROFESSIONAL SUMMARY

Results-driven Software Engineer with over 4 years of experience in full-stack development, specializing in SharePoint Framework (SPFx), React.js, TypeScript, Power BI, and Graph API. Proven ability to develop enterprise-grade solutions, lead projects, and mentor junior developers, resulting in 30% average improvements in team productivity and application performance. Adept at working in Agile environments, optimizing the performance of applications. Committed to long-term contributions in collaborative and high-performing teams.

TECHNICAL SKILLS

Frontend & SharePoint Framework
- React.js (Hooks, Context API, Routing, State Management)
- SPFx (Web Parts, Extensions, Event Receivers)
- TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Bootstrap

Microsoft 365 & Collaboration
- SharePoint Online Development & Customization
- Power Automate (Flows for Notifications, Approvals)
- Power Apps (Custom Forms, Canvas Apps)
- Microsoft Graph API, REST API Integration
- PnP js (Patterns & Practices JavaScript Library)

Development Tools & DevOps
- Git, GitHub, GitLab
- Visual Studio Code, Node.js, npm, Yeoman Generator for SPFx
- Chrome DevTools, Postman, Fiddler
- Agile, Scrum, Jira, Trello

Soft Skills
- Project Management, Team Leadership, Code Review, Documentation, Communication
- Client Interaction, Problem Solving, Mentorship, Time Management

PROFESSIONAL EXPERIENCE

SharePoint (SPFx) Developer | Smalsus Infolabs Pvt. Ltd, Noida, U.P., India **November 2022 – Present**

- Designed and deployed enterprise-grade SharePoint solutions using SharePoint Framework (SPFx), React.js, and TypeScript, including Leave & Expense Management, Task & User Management, and CMS platforms for scalable full-stack development and reducing manual processing time by 40%.
- Developed Power BI dashboards integrated with SharePoint for real-time reporting and analytics, improving decision-making speed by 30% through optimized data visualization and API-driven.
- Optimized UI templates, call-to-actions (CTAs), and user interfaces with Fluent UI and Bootstrap, enhancing usability, reducing bounce rates by 15%, and ensuring responsive design in Agile environments, leading to a 25% increase in user satisfaction scores.
- Led multiple projects with scalable architecture, CI/CD pipelines, and Git/GitHub version control, ensuring maintainability, performance optimization, and on-time delivery of high-performing applications, cutting deployment cycles by 35%.
- Mentored junior developers in full-stack development best practices, TypeScript coding standards, and React.js component design, improving team productivity by 20% and reducing code review cycles by 50% across 5+ team members.
- Collaborated with cross-functional teams using MS Teams and MS Planner to deliver efficient, enterprise solutions aligned with Agile methodologies and Scrum frameworks, resulting in 95% on-time project completion rate.

Front-End Developer | WIOAI Pvt Ltd, New Delhi **December 2021 – November 2022**

- Developed responsive UI for AI-based recommendation systems using React.js, TypeScript, and real-time API integrations, focusing on full-stack development and state management with Redux Toolkit, achieving 40% faster.
- Improved application performance through code optimization, reducing load times by 18% and increasing user engagement by 25% via scalable solutions and RESTful APIs, contributing to a 15% growth in monthly revenue from recommendations.
- Implemented front-end features with Bootstrap and Material UI, ensuring cross-browser compatibility and integration with backend services for enterprise-grade performance, which minimized production bugs by 60% during launches.

Full Stack Developer Intern | Codeif Technology Pvt Ltd (Remote) **July 2021 – September 2021**

- Contributed to full-stack feature development and debugging of web applications using JavaScript, React.js, and Node.js, enhancing overall performance and scalability, resulting in a 30% reduction in system downtime for beta testing phases.
- Supported Agile sprints by integrating RESTful APIs and optimizing database queries in MySQL, contributing to efficient CI/CD pipelines and project deliverables, accelerating sprint velocity by 20% in a team of 8.

KEY PROJECTS

CMS-Based Website Development (Project Lead)
Led full-stack development of 3 CMS-based websites using SharePoint Framework (SPFx), React.js, TypeScript, and PnP for scalable templates and workflows. Optimized user experience with Power BI analytics and Graph API integrations, resulting in improved performance, 35% faster content publishing, and enterprise-grade maintainability for 10+ client sites.

Leave & Expense Management System (Team Lead)
Built workflow-driven full-stack solution with SharePoint Lists, Microsoft Graph API for automated approvals, and Power BI for real-time reporting, enhancing operational efficiency in Agile environments by automating 80% of approval processes and saving 200+ hours monthly.

Task & User Management Tools (Developer)
Developed from scratch using React.js, TypeScript, MS Planner integration, and Power BI analytics, focusing on scalable architecture and performance optimization for collaborative teams, enabling real-time tracking for 500+ tasks and reducing resolution time by 45%.

AI-Based Recommendation System (Front-End Lead)
Developed scalable UI components with React.js and Redux, integrated with AI models via RESTful APIs and Graph API, reducing response latency by 20% and increasing recommendation accuracy through data-driven optimizations, boosting conversion rates by 22% for e-commerce features.

EDUCATION

B.Tech in **Computer Science**, Indraprastha Institute of Management & Technology (**AKTU**) **2018 – 2022 CGPA: 8.32**

CERTIFICATIONS & ACHIEVEMENTS

- Microsoft Power Platform Fundamentals (In Progress)
- Web Design for Everybody – University of Michigan (Coursera)
- Promoted twice within 2 years for performance excellence in full-stack development and project leadership, driving 25% overall team output growth
- Recognized for strong communication, mentoring junior developers, and collaboration skills in Agile teams, contributing to 90% client satisfaction ratings

ADDITIONAL INFORMATION

- Strong communication and collaboration skills for seamless project delivery in high-performing teams
- Passionate about mentoring, knowledge sharing, and continuous learning in enterprise solutions and cloud technologies
- Open to full-stack development, cloud solutions (Azure), and enterprise application roles
